

Restorative Justice Week 17-24 November 2013– Inspiring Innovation

Restorative Justice is a process where people affected by an injustice come together to discuss the causes and consequences of the injustice as well as possible solutions to repair the harm inflicted. Victims, offenders and possibly the community have an active role in explaining the real impact of the offense and find a way to actually restore justice.

The *European Forum for Restorative Justice* is engaged in spreading restorative practices throughout Europe. It brings together policymakers, researchers and practitioners who work together with the aim of sharing information and developing new inspirational and innovative ways to find justice.
